

| WEEK | MONDAY | TUESDAY | WEDNESDAY | THURSDAY | FRIDAY | SATURDAY | SUNDAY |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 6/24-6/30 | 2 miles easy | Walk/ strength training | 2 miles run 1 min and walk 1 min combo | Cross train 30 mins either bike/swim/walk | Off | 2 miles | Off/walk |
| 7/1-7/7 | 2 miles easy | Walk 20 mins and strength training | 2 miles of run 2 mins and walk 1 min | Cross train 30 mins either bike/swim/walk | off/active recovery | 3 miles | Off/walk |
| 7/8-7/14 | 2 miles easy and $4 \times 20$ second strides | Walk 20 mins and strength training | 3 miles of run 2 mins and walk 1 min | Cross train 30 mins either bike/swim/walk | off/active recovery | 4 miles | Off/walk/foam roll/mobility |
| 7/15-7/21 | 2 miles easy and $4 \times 20$ second strides | Walk 20 mins and strength training | 3 miles of run 3 mins and walk 1 min | Cross train 30 mins either bike/swim/walk | off/active recovery | 6 miles | Off/walk/foam roll/mobility |
| 7/22-7/28 | 3 miles easy and $4 \times 20$ second strides | Walk 20 mins and strength training | 3 miles of run 4 mins and walk 1 min | Cross train 30 mins either bike/swim/walk | off/active recovery | 5 miles | Off/walk/foam roll/mobility |
| 7/29-8/4 | 3 miles easy and $4 \times 20$ second strides | Walk 20 mins and strength training | 3 miles of run 5 mins and walk 1 min | Cross train 30 mins either bike/swim/walk | off/active recovery | 8 miles | Off/walk/foam roll/mobility |
| 8/5-8/11 | 3 miles easy and $4 \times 20$ second strides | Walk 20 mins and strength training | 2 miles easy | Cross train 30 mins either bike/swim/walk | off/active recovery | 5 miles or Big Blue 5K with 1 mile warmup and 1 mile cooldown | Off/walk/foam roll/mobility |
| 8/12-8/18 | 2 miles easy and $6 \times 20$ seconds strides | Walk 20 mins and strength training | 3 miles easy | Cross train 30 mins either bike/swim/walk | off/active recovery | 9 miles | Off/walk/foam roll/mobility |
| 8/19-8/25 | 2 miles easy and $6 \times 20$ second strides | Walk 20 mins and strength training | 3 miles easy | Cross train 30 mins either bike/swim/walk | off/active recovery | 4 miles easy | Off/walk/foam roll/mobility |
| 8/26-9/1 | 2 miles easy and $4 \times 20$ strides | Walk 20 mins | 2 miles easy | Cross train 30 mins either bike/swim/walk | off/active recovery | 10 mins \& strides | RACE |

1. The ten-week training period begins the week of June 24th.
2. For beginner runners, don't feel you need to run the entire time. Just stay on your feet for the time specified and use whatever combination of running and walking you are most comfortable with. For example, start your session with a 5-10 minute walk then progress to $X$ minutes of running and $Y$ minutes of walking. (ex. Run 2 minutes, walk 2 minutes). You'll notice that early on in the schedule, run/walks are built into the schedule! Experiment with different ratios but never run to the point of exhaustion. The key is to take your walk breaks early when you are still feeling strong. You'll be amazed at how far you'll be able to go with experimenting with different run/walk ratios to find the one you are most comfortable with and which will
enable you to complete the listed distance.
3. If you do not have a measured course where you most often run or walk, use time instead-based on your pace. In other words, if you are scheduled to complete 2 miles and you normally run or walk a 12 minute mile, stay out for 24 minutes.
4. This schedule includes 3 running days, 2 cross-training days, and 2 rest days. Cross training helps to develop and maintain aerobic endurance without extra pounding on your joints and muscles. Good options include swimming, biking, walking briskly, etc. Experiment with which option feels best for you and get to work!
5. The long distances on Saturdays are the key workouts. Again, do not worry about the distance-just run or walk for time. These events should be slow! You should be able to carry a reasonable conversation without huffing and puffing. Again, if Saturday is not convenient for your long run or walk, move it to a different day and adjust the rest of your schedule accordingly.
6. Change days of the week that you run on to work what's best for you. Just try to maintain the same general sequence of events. If you miss a day or two-don't panic. There is a great deal of flexibility in the schedule.
7. Strength training and mobility are important for runners. There are tons of YouTube videos with both strength and mobility routines that you can follow that are free and easy to do at home if you do not have access to a gym!
8. You'll notice strides are listed once per week for most of the schedule. So what is a stride? To run faster, we have to practice running faster! Strides are a simple way to build some speed and reinforce good form by doing just that. After your run, stop and take a few moments to breathe, walk, do some simple form drills. Then you'll "stride out" (i.e. run fast) for 20 seconds. These are not all-out sprints, but close to that, just more controlled. For strides, get up to $\mathbf{8 0}-90 \%$ of how fast you would run a sprint. After the stride, stop and recover by walking around for 30-60 seconds before beginning the next one.
9. The weekend of August 10th is our Big Blue 5K hosted at Old Dominion University. Running a 5 K is a great way to see how all your hard work is paying off and challenge yourself to run a little faster than normal.
